

WEYERHAEUSER TREATER SERIES™ LUMBER

Treated Lumber that Starts Straight and Stays Straight

Certified Sourcing
www.sfiprogram.org
SF-00008

- Graded by a patented, computerized system to ensure lumber that starts straight and stays straight
- Kiln-dried after treatment (20' air-dried) for less weight, less shrinking, and better workability
- Provides better than #2 prime grading to deliver a great appearance, as well as superior performance
- Product reliability leading to higher customer satisfaction
- Offers peace of mind with a limited warranty against warp that would otherwise result in product not being usable

Typical lumber (shown above),
unlike Weyerhaeuser Treater Series,
can significantly warp by 90 days.
